 Notice of Allowability

**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1 – 37 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 25, 26 and 28, for example which include, a lens for directing light output from a light source having an overall length is longer than the focal length of collector portion (claim 1); and collector portion collimates and homogenizes first and second portions of light output to form a circular, uniformly illuminated near field image within transition section and projector section projects circular image into far a far field of assembly (claim 25); and a transition portion extending between collector portion and projector portion and transition portion having a length is longer than the focal length of collector portion (claim 26); and a projector component having an input end and an output end and projector component in fixed spaced relation to collector component (claim 28) (note : claims 1, 25 and 26 are allowed previous office action) .
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2873

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
